

3M™ Tartan™ Vinyl Electrical Tape, 1710, 3/4 in x 60 ft

3M ID 7000134431

Specifications

Length 60 Linear Foot

Length (Metric) 18.3 m

Width 0.75 Inch

Width (Metric) 19.1 mm

Details

- PVC Backing
- Pressure-sensitive rubber-based adhesive
- Compatible with solid dielectric cable insulations
- For indoor or outdoor applications

3M™ Tartan™ Vinyl Electrical Tape 1710 is a general purpose electrical insulating tape. It is economical and durable with excellent resistance to a wide range of contaminants and weather conditions.

Suggested Applications

- Primary electrical insulation for all wire and cable splices rated up to 600 volts and 80°C (176°F)
- Can be used as a protective jacketing for high voltage cable splices and repairs or for harnessing of wires and cables
- For indoor and outdoor applications
- For above or below grade applications
